2.	SUSTAINABILITY WORK	<u> </u>	
	Company's certification		
	✓ ISO 9001 ISO 14001		
	Other:		
	FSC NC-COC-012342: PFSC NC-PEFC/COC-000018		
	Pallatan and model lines		
	Policies and guidelines		
	The company has a code of conduct/policy/guidelines for dealing with social responsibility in the supplier chain, including produces for ensuring the requirements This is third-party audited If yes, which if the following guidelines have you affiliated to or management system you have implemented UN guiding principles for companies and human rights ILO's eight core conventions		
	OECD Guidelines for Multinational Enterprises		
	UN Global Compact ISO 26000		
	Other policy guidelines		
	Other policy guidelines		
	Management system		
	If you have a management system for corporate social responsibility, what ou	it of the following is included in the work?	
	Mapping		
	Risk analysis		
	Action plan		
	Monitoring		
	Sustainability reporting guidelines:		

3. DECLARATION OF CONTENTS

Chemical content

Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of "once an article always an article".

Is there a safety data sheet for the article?

Is there classification of the article?

Not applicable	Not applicable		
Enter which version of the candidate list has been used (Year, month, day)	For complex products, the concentration of included substances has been calculated at:		
2016-06-10	whole construction product		
The article is covered by the RoHS Directive:	Enter the weight of the article:		
No			
Enter how large a proportion of the material content has been declared [%]:			
100			
If the article contains nanomaterials deliberately added to obtain a particular function, enter these here:			
Is the article registered in Basta?	Enter the proportion of volatile organic substances [g/litre], applies only to sealants, paints, varnishes and adhesives:		
No			
Other information:

Comment

Component Material Transport type

Surface material Plywood

Country of raw material extraction City of raw material extraction

Malaysia

Country of manufacture/production City of manufacture/production

United Kingdom of Great Britain and Northern Ireland Essex

Comment

Total recycled material in the article

Is recycled material included in the article?

Renewable material	
Enter proportion of renewable material in the article (short cycle, less than 10 years):	Enter proportion of renewable material in the article (long cycle, more than 10 years):
Included biobased raw material is tested according to ASTM test	method D6866:
Is there supporting documentation for the raw materials for third-party corecycling processes or similar (for example BES 6001:2008, EMS certification).	ertified system for control of origin, raw material extraction, manufacturing or cate, USGBC Program)? If yes, enter system(s):
E1 certificate for wooden boards.	
Wood raw materials	
✓ Wood raw materials are included	Included wood raw material is certified
How large a proportion is certified [%]?	
What certification system has been used (for example FSC, CSA, SFI w	ith CoC, PEFC)?
DDS	
Reference number:	
Enter logging country for the wood raw material and that following criteri	a have been met. Country of logging:
Estonia; Malaysia	
✓ Does not contain type of wood or origin in CITES appendix of enc	dangered species
The timber has been logged legally and there is certification for the	is
ENVIRONMENTAL IMPACT	···
	antiala muadustian nhasa madula A4 A2 undan FA
Environmental impact during life cycle of the	e article, production phase module A1-A3 under EN
Has environmental product declaration been drawn up according	to EN 15804 or ISO 14025 for the article?
These product-specific rules, known as PCR, have been applied:	Registration number / ID number for EPD:
Climate impact (GWP100) [kg CO2-eq]:	Ozone depletion (ODP) [kg CFC 11-eq]:
Acidification (AP) [kg SO2-eq]:	Ground-level ozone (POCP) [kg ethene-eq]:
Eutrophication (EP) [kg (PO4)-3-eq]:	Renewable energy [MJ]:
Luttophication (L1) [kg (1 04)-3-eq].	Nenewable energy [wo].
Non-renewable energy [MJ]:	If calculation has been made in Green Guide, enter which rating:
If there is environmental product declaration or other life cycle assessme from a life cycle perspective:	ent, describe how the environmental impact of the article is taken into account

5.

6. DISTRIBUTION

Distribution of finished article

Does the supplier apply any system with multiple-use packaging for the Does the supplier use Retursystem Byggpall? article? No No Does the supplier take back packaging for the article? Is the supplier affiliated to a system for product responsibility for packaging? Yes No If yes, which packaging and which system? FTI Other information: 7. CONSTRUCTION PHASE **Construction phase** Does the article make special requirements in storage? Yes Specify Storage in dry area. Does the article make special requirements for surrounding building products? No Specify Other information:

The data provider is solely responsible for data on articles/products that have been registered in the database. The data provider and the Swedish Association of Construction Product Industries cannot be held responsible for correct information incorrectly entered into the database.

8. USE PHASE

Use phase

9.

Does the article make requirements for input materials for operation and maintenance?	
No	
Specify:	
Does the article require supply of energy during operation?	
No	
Specify:	
Estimated technical service life for the article:	
25 years	
Comment:	
Is there energy labelling under the Energy Labelling Directive (2010/30/EU) for the article?	If yes, enter labelling (G to A, A+, A++, A+++):
No	
Other information:	
DEMOLITION	
Demolition	
Is the article prepared for disassembly (dismantling)?	
Yes	
Specify:	
Fittings	
Does the article require special measures for protection of health and environment in demolition/disassembly?	
No	
Specify:	
Other information:	

10. WASTE MANAGEMENT

Delivered article

Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?
No
Is reuse possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Fittings.
Is material recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Fittings and glass.
Is energy recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Wooden material for heating.
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?
No
Specify:
Waste code for the delivered article when it becomes waste
1702 - 02 Trä, glas och plast:
When the supplied article becomes waste, is it classified as hazardous waste?
No
Mounted article
Is the mounted article classified as hazardous waste?
No
Other information

Other information

11. INDOOR ENVIRONMENT

Indoor environment

The article is not intended for indoor use			
The article does not produce any emissions			
Emissions from the article not measured			
Does the article have a critical moisture state?			
No			
If yes, state what:			
Noise	Electrical field	Magnetic fields	
Can the article give rise to own noise?	Can the article give rise to electrical fields?	Can the article give rise to magnetic fields?	
Not applicable	Not applicable	Not applicable	
Value:	Value:	Value:	
Unit:	Unit:	Unit:	
Measuring method:	Measuring method:	Measuring method:	
Paints and varnishes			
The article is resistant to fungi and algae in use in wet areas			
Emissions			

The article produces the following emissions in intended use:

Other information
