

## Wood glue OUTDOORS - Water based moisture-resistant adhesive

### Area of Application

- For indoor and outdoor use
- All round wood glue
- Wood against wood
- Doors and windows
- Parquet and laminate flooring
- Outdoor furniture, etc.

### Description

Classic wood glue or so-called white glue based on PVAc for use in non constant moist applications. The glue is in moisture class D3, which means it withstands being wet, but is not waterproof over time, must be allowed to

dry. For the best results, the material to be glued should have a good fit and preferably be newly processed. Clamp the application for at least thirty minutes, preferably longer. Store frost-free, non-dried glue is cleaned with water or Universal cleaning cloth.

- Moisture class D3
  - Paintable
  - Working temperature +5 °C to +40 °C
  - Store upright at room temperature max +25 °C
- More information and safety data sheet available on [essve.com](http://essve.com)
