

Area of Application

ESSVE Chipboard, Board screw is designed for Chipboard, boards or plywood panels as well as mouldings and base boards indoors against steel joists. Drill capacity 0.4 – 0.9 mm.

Description

The screw is straight collated and manufactured of harden carbon steel with phosphated surface treatment. It is equipped with Philips

crosshead Ph2.

ESSVE Chipboard and board screw is suitable for the most common autofeed screwdrivers available on the market.

Installation

Machined bits are recommended when fitting collated Minerit- and board screws.

Recommended rpm: 2000-2800/min

Specification
