LIM, LIIMA, GLUE

SE

Vid montering med lim följ instruktionerna som medföljer limmet.

Använd Hafas limkit 1450391.

Kontrollera att underlaget är bärkraftigt och orkar hålla de laster som kan uppstå.

DK

Ved montering med lim medfølger vejledning i limning.

Brug lim set 1450391.

Sørg for, at underlaget har tilstrækkelig bæreevne og kan klare den belastning, der kan opstå.

NO

Ved montering med lim må du følge liminstruksjoner.

Bruk lim set 1450391.

Kontroller at underlaget er solid og tåler belastningen som kan oppstå.

FI

Kun asennat liimalla, noudata liimausohjeita.

Käytä Hafa liimasarja 1450391.

Varmista, että pohja on kantava ja kestää esiintyvät kuormat.

ENG

When installing with adhesive, follow the instruction for use for the adhesive. Use glue kit 1450391.

Make sure the underlying structure is strong and can withstand the expected loads.

alt.

SE

Skruvinfästningar ska göras i betong eller annan massiv konstruktion, träreglar, träkortlingar eller i konstruktion som är provad och godkänd för infästning, till exempel skivkonstruktion. Se exempel på godkända konstruktioner på säkervatten.se. Material för tätning ska fästa mot underlaget och vara vattenbeständigt, mögelresistent och åldersbeständigt. Krav på tätning gäller både i våtzon 1 och 2.

GB

Below are Swedish recommendations:

Screw fastenings should be made in concrete or other solid structure, wooden studs, wooden noggings or in structures that have been tested and approved for fastenings, for example a sheet construction. See examples of approved constructions at säkervatten.se. Sealing substances must fixate to the materials it aims to seal, be waterproof, mould-resistant and age-resistant. Requirements for sealing apply in wet zones 1 and 2.

Skötselråd • Vedligeholdelsesråd • Vedlikeholdsråd • Hoito ohjeet • care advice •

SE – Duschväggar

För att underlätta rengöringen av duschdörrar och duschväggar har duscharna stora släta ytor och profiler utan djupa skårar. Missfärgningar tas bort med citron eller vinsyra; skölj noga efteråt. Kalkfläckar tas bort med 50 grader varm hushållsättika: gnid in, låt verka, skölj bort. Upprepa om fläckarna är svåra.

DK – Hafas brusekabiner

For at lette rengöringen af brusedøre og -vægge har vores bruseafskærmninger store glatte overflader og profiler uden dybe riller. Misfarvninger kan fjernes med citronsyre eller eddike (skyl efter). Skrub med en børste, hvis pletterne er genstridige.

NO – Hafa dusjer

For å forenkle rengjøringen av dusjdører og dusjvegger har dusjene store slette glassflater og profiler uten dype sprekker. Missfarging tas bort med sitron eller vinsyre, skyll nøye etterpå. Kalkflekker tas bort med 50 grader

varm edikk: gni inn, la det virke, skyll bort. Gjeta om flekkene er vanskelige å få bort. Gjennom å polere innsiden på dusjveggene i klart glass med Hafa Easy Clean glass forsegles glassoverflaten slik at den blir enklere å rengjøre. Bruk aldri slippende rengjøringsmidler på dine dusjdører/dusjvegger.

FI – Hafan suihkut

Puhdistamisen helpottamiseksi on suihkuovissa ja -seinissä suuret, sileät pinnat. Värjäytymät otetaan pois sitruuna- tai viinihapolla; huuhtelee hyvin käytön jälkeen. Kalkkikerrostumat otetaan pois 50 astetta lämpimällä talousetikalla: hiero pintaan, anna vaikuttaa ja huuhtelee pois.

ENG – Hafa showers

To facilitate the cleaning of shower doors and shower walls, the showers have large smooth surfaces and profiles without deep grooves. Discolouration is removed using citric or tartaric acid, rinse thoroughly afterwards. Limescale stains are removed using household vinegar warmed to 50 degrees: Rub it in, let it act, rinse away. Repeat for tough stains.
